

The AI team that runs your business while you sleep.

Your own AI team on your own computer prepares the work around your business. You decide what goes out.

THE PROBLEM

Doing it all yourself? Every evening, again.

You run the business. Then, after hours, you run everything around it.

Customer mail

Questions about orders, bookings and prices, all day long.

Social posts

You know you should post. The last one was weeks ago.

Quotes

Every request needs a tidy quote, and fast.

Invoices

Sending them, chasing them, keeping the books straight.

Reviews

Each one deserves a reply. Most never get one.

Website and ads

Always on the list. Never on the calendar.

MEET LOCALLY.AI

Your own AI team. On your own computer.

Michael, your team lead, and his specialists turn the work around your business into ready drafts. You read them, tweak them and decide what goes out.

Drafts only

Nothing is sent, published, paid or switched on without your OK.

On your computer

A desktop app for Mac and Windows. Your files and keys stay with you.

Your own AI

Runs on the Claude or ChatGPT subscription you already have.

Pay once

No subscription to Locally. From €197 at launch, once.

THE TEAM

A team lead and nine specialists. In every kit.

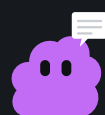

The Basics team covers what every business does. Your kit adds 3 to 12 specialists for your kind of work.

**Otto**

Tech help

Max prepares ads switched off. They stay off until you approve and switch them on.

WHAT IT DOES

The work arrives as drafts. You read, tweak, send.

Customer mail

Reply drafts in your mailbox, with the order and tracking looked up.

Social posts

A weekly plan with posts, captions and photo ideas.

Quotes and invoices

Drafts in Moneybird or Stripe, reminders prepared.

Website and SEO

New pages and fixes you preview first.

Ads

Campaigns prepared switched off, plus a plain weekly report.

Reviews and leads

Review replies, lead lists and outreach drafts.

HOW IT WORKS

Install it. Brief it. Approve it.

01

Install it

Download the app for Mac or Windows and paste the licence key from your Whop order. About 15 minutes.

02

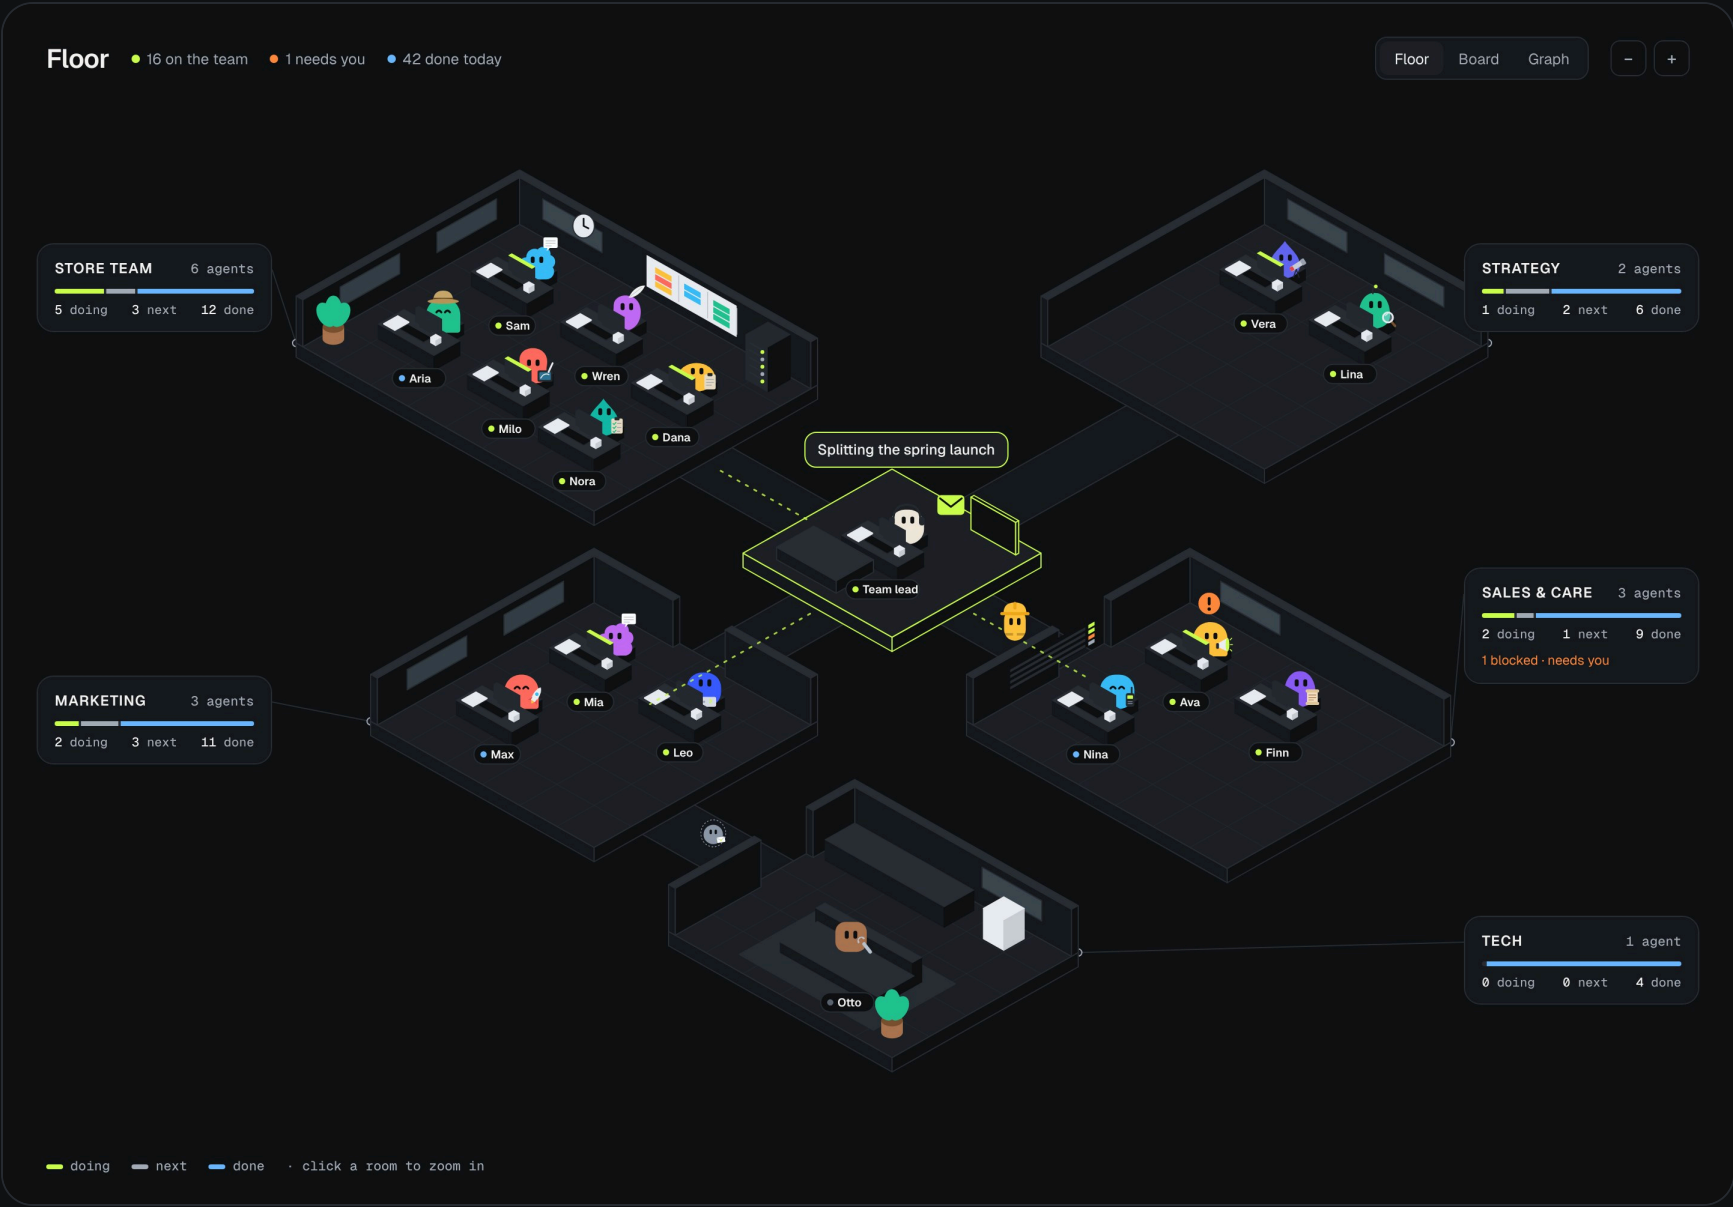

Brief it

Tell Michael what you want, in plain words. Connect your mail, shop or invoicing if you like.

03

Approve it

Approve, edit or send back. Routine work runs on a schedule.

The office: green means working, orange means somebody needs you.

A DAY WITH LOCALLY

Brief in the evening. Approve in the morning.

EVENING

You brief Michael

"Draft replies to today's mail, plan next week's posts, prepare the Jansen invoice." Two minutes, your own words.

OVERNIGHT

The team prepares

Michael splits it into tasks. The specialists draft, look things up and leave every result for you.

MORNING

You approve

Read with your coffee. Approve, edit or send back. Then you send or publish it yourself.

Overnight work needs your computer on with Locally open and Keep working while away switched on. Or run it on a rented computer, about €10 a month to the provider.

AN EXAMPLE MORNING

Coffee first. The drafts are waiting.

TIME	WHO	WHAT HAPPENED	STATUS
08:02	Nina	Drafted 9 replies to new reviews	Approved
08:31	Finn	Drafted 2 invoices in Moneybird	Needs your OK
08:47	Lina	Rewrote 4 page titles for search	Needs your OK
09:05	Michael	Splitting your spring launch into 6 tasks	Working

An illustration of a typical morning, not customer data.

KITS

Pick the office that fits the work.

LOCAL BUSINESSES KIT

Trades

Job requests, quotes with VAT, reviews

Salons

Bookings, Instagram, client care

Horeca

Reservations, menu, allergens

Freelancers

Proposals, hours, invoices

ONLINE BUSINESS

E-commerce

Order mail, product texts, margins

Agencies

Leads, proposals, client reports

CREATORS & COACHES

Coaches & Course Creators

Modules, launches, check-ins

Creators & Clippers

Hooks, clips, brand pitches

COMMUNITIES

Whop Communities

Member pulse, welcomes, win-backs

Trading & Picks

Education and member admin. Never picks.

Every kit: Michael and the Basics team, plus specialists for that kind of work.

WHY NOT JUST CHATGPT?

A chatbot answers. A team does the work.

	A CHAT WINDOW	LOCALLY
Your business	You explain it every time	Known, in one shared profile
The result	You copy and paste it	Drafted straight in your apps
When it works	Only when you type	Also in daily and weekly rounds
Who helps	One assistant	A team lead and a team of specialists
Sending	Up to you, by hand	Nothing goes out without you

Locally runs on the same Claude or ChatGPT you already pay for. It adds the team, the memory and the schedules.

YOU STAY IN CONTROL

Nothing goes out without you.

- ✓ The team works on your own computer.
- ✓ Sending, publishing and payments need your OK.
- ✓ Most connections are read-only.
- ✓ Keys are encrypted and hidden from the agents.
- ✓ Ads are prepared switched off. You switch them on.
- ✓ Task text goes only to your own AI provider.

PRICING

Pay once. Pick how much help you want.

QUESTIONS YOU WILL HEAR

Short answers. Honest ones.

Do I need to code?

No. You install an app and give the team goals in plain language. Connecting apps is optional.

What does it cost per month?

Nothing to Locally. Your own AI is about €20 to €23 a month. The Update Plan after year one is optional.

Is my data safe?

The team works on your own computer. Keys are encrypted and hidden from the agents.

Does it work while I sleep?

While your computer is on and Locally is open. Or on a rented computer.

Can it send things on its own?

No. Sending, publishing, payments and ads always need your approval.

Can I get a refund?

Self-install comes with a 14-day "works on your computer" guarantee.

HOW TO START

Your next step takes 15 minutes.

01

Pick your kit

At locallyai.whop.site, or try it free first at locallyai.whop.site/free/.

02

Order on Whop

At whop.com/locallyai. Your licence key is on the order page and in the email.

03

Install and brief

Download for Mac or Windows, paste your key, give Michael your first brief.
